

Care Homes Brochure: Middlesbrough

Published: February 2024

Introduction

This brochure is produced by Middlesbrough Council. It aims to help you choose a Care Home either for yourself, a family member or someone you care for.

We want to make sure that, when you are looking for a Care Home, you have enough information to help you decide which one you would like to live in or recommend to someone you care for.

Quality and Standards

The Council reviews each home annually in an unannounced visit and scores them on the five metrics listed below – these are things the council feels are important:

1. Person Centred Planning
2. Health & Safety
3. Medication
4. Comments, Safeguarding & Quality Assurance
5. Training and Development

You'll find the Middlesbrough Council scores for each Home on their individual pages.

The Care Quality Commission

The Care Quality Commission (CQC) inspect each Care Home. Each Care Home page contains a link to the CQC website to check the most up-to-date report. When carrying out these inspections the CQC ask 5 questions:

Are they safe?	You are protected from abuse and harm
Are they effective?	Your care, treatment and support achieves good outcomes, helps you maintain quality of life and is based on the best available evidence
Are they caring?	Staff involve and treat you with compassion, kindness, dignity and respect
Are they responsive to needs?	Services are organised so that they meet your needs
Are they well-led?	The leadership, management and governance of the organisation makes sure it's providing high quality care that's based around your individual needs, that it encourages learning and innovation and that it promotes an open and fair culture

Services are then awarded scores for each of these questions which then relate to an overall score.

Outstanding	The services is performing exceptionally well
Good	The service is performing well and meeting expectations
Requires Improvement	The service isn't performing as well as it should and has been told to improve
Inadequate	The service is performing badly and enforcement action has been taken against the provider
No rating/under appeal/rating suspended	Some services can't be reviewed or might be under appeal from the provider. Suspended ratings are being reviewed by CQC and will be published once resolved

A service will have a comprehensive inspection at the following frequencies:

- Services rated as good and outstanding
Normally within 30 months of the last comprehensive inspection report being published
- Services rated as requires improvement
Normally within 12 months of the last comprehensive inspection report being published
- Services rated as inadequate
Normally within 6 months of the last comprehensive inspection report being published
- Services that are no longer dormant
The first comprehensive inspection will normally be scheduled between 6 to 12 months from the date the service starts operating again
- Newly registered services
For brand new services, the first comprehensive inspection will normally be scheduled between 6 to 12 months from the date of registration. If a service was previously operated by another provider, or at a different address, the inspection will normally be scheduled based on the location's last inspection report publication date and rating or within 12 months of registration, whichever is the latter.

Environmental Health Food Hygiene Rating Scheme

In Middlesbrough, providers are routinely inspected by Environmental Health Officers from the Council's Public Protection Service.

They check that hygiene standards meet legal requirements and will issue a hygiene rating based on the standards found. The ratings range from '0' which means urgent improvements are necessary, to '5' for very good hygiene standards.

Hygiene ratings are available on the [Food Standards Agency website](#) and businesses are given a hygiene rating certificate and window sticker to display on their premises. For more information, contact Environmental Health:

Care Home Services

All Care Homes are registered to provide residential care. Some homes are also registered to provide additional services:

- Residential Care Home – people who live here are given help with things like personal care such as washing and dressing, but the staff do not give nursing care. Nursing care would come from people such as district nurses who visit the home.
- Nursing Care Home – people who live here have more complex health care needs. A Registered Nurse is at the home at all times.
- Dementia Residential Care Home – people who live here sometimes need special services to meet their needs. If someone has Dementia it does not always mean that they need to move into a specialist home. However, the type of dementia they have will determine the service the person needs and some people with Dementia will need specialist care.
- Dementia Nursing Care Home – people who live here have more complex mental health needs because of their Dementia. A Registered Mental Health Nurse is at the home at all times.
- Respite Care Homes – gives a carer a break from their caring role. Any home can offer respite care. Each Care Home will be able to explain to you how they will give respite care.

It should be noted that if a person's needs change and an assessment determines that these needs cannot be met by the Care Home, then the person may need to move to a Care Home that can meet the assessed needs of that person.

Paying for Care

You may be able to get financial help from the Council to pay for your care. We decide this by doing a financial assessment.

You can apply for a financial assessment at any time by using the online form below:

Apply for an
assessment

If you're unable to use the online form, you can ask for a copy to be sent to you by post or email.

Contact the Financial Assessment Team by calling 01642 726777 or emailing ascfinancerescare@middlesbrough.gov.uk

Some Care Homes charge a Third Party Contribution (Top-Up fee) for things such as larger rooms or a room with a view. These fees are in addition to what the Council has agreed to pay following your assessment.

You have the right to choose the Care Home you want to live in but it is important that you understand what you, your relatives or representative are agreeing to if deciding to pay extra. If a Third Party Contribution (Top-Up) is to be paid, all parties (Provider, Third Party Payee and the Council) must enter into a Third Party Contribution Agreement. Further details can be found in the Third Party Contributions (Top-Up) Policy and from the Department of Social Care and Health Integration.

You may find further information on the '[Social Care Contributions](#)' page and the '[How to get the Support you need](#)' leaflet.

Keeping safe (safeguarding)

Protection of Vulnerable Adults

Adults may be vulnerable because they are frail or have ill health, a learning or physical disability. They may be unable to protect themselves against abuse. Abuse occurs when a person is harmed, mistreated, exploited or neglected.

Adult protection procedures are in place to safeguard adults who are more vulnerable to abuse and neglect, and are co-ordinated by Middlesbrough Council's Department of Social Care and Health Integration. Any concern or allegation will be taken seriously. We will listen to you about what has happened, record your concerns and look into them. The main aim is to help people stay safe.

The Deprivation of Liberty Safeguards (DoLS)

The Deprivation of Liberty Safeguards (DoLS) were introduced in April 2009 to safeguard people in Care Homes and hospitals who cannot consent to their care, treatment and accommodation because they lack the mental capacity to do so.

If you have any concerns or queries or would like further information on this area of the Law, please contact the Middlesbrough Council Deprivation of Liberty Safeguards/Best Interests Assessors' Team on 01642 729057.

Reviewing your care

If you live in a Care Home, you will get a review of your care needs if you have financial help from the Council. If you pay for your own care you can request one. You can contact Middlesbrough Council's Department of Social Care and Health Integration to arrange a review or, if you have any questions about your care, you can ask a Social Worker to visit you.

Making a complaint, compliment or comment

We welcome complaints, compliments and comments. We use them to help us improve our services to you.

If your complaint, compliment or comment is about a Care Home, you should use their complaint, compliment or comment process. If you are unhappy with the outcome you may be able to use our Complaints Procedure.

Adult Services Advice, Information and Advocacy Charter

All care providers have been asked to sign up to the following charter on a voluntary basis:

The service provider will provide information and advice to citizens and/or their carers who may have social care needs:

- How they can get the care and support that they need.
- How to signpost the person to get support around financial matters.
- How to raise concerns about the health and wellbeing of a service user or their carer.
- Provide information that they need or ask for and not to give them unnecessary information.
- Let them know if information about them is going to be shared with other organisations to improve public services – and give them the right to say no.

In addition the service provider should align with Middlesbrough Council's Customer Strategy Charter as follows:

- The customer will always be our focus.
- We will give the customer the capability and support to 'Do it Online'.
- Give us your information once and we'll always do our best to remember it!
- We will keep it simple.
- We aim to get it right the first time.
- We will treat the customer fairly and with honesty.

And explains how in turn, our customers can help us, by:

- Treating our employees appropriately.
- Providing us with all the information we need in order to help you; informing us as soon as possible where there are any changes in circumstances.
- Helping us to improve by offering feedback and suggestions.
