

RIVERSIDE STADIUM STREET TRADING SPECIFICATION

1. Street trading is regulated in Middlesbrough Town Centre under the provisions of the Local Government (Misc Provisions) Act 1982. Middlesbrough Council may grant a trading consent, if it thinks fit. Currently there are 11 food traders holding annual consents operating from the area surrounding the Riverside Stadium in the Middlehaven area of Middlesbrough.
2. Whilst the Council is committed to long term arrangements for street traders who meet the criteria in this specification, by law consents have to be renewed annually, therefore renewals cannot be legally guaranteed
3. Up to 12 potential trading sites are available on the area surrounding the Riverside Stadium within the designated consent street area from the range of sites identified on the attached map
4. Requirements in relation to the specifications for trading units at the Riverside pitches and products sold from the units differ from those required within the Town Centre. It is accepted that most units will be offering food products or football orientated merchandise. Units are not required to comply with the requirements imposed on Town Centre traders in relation to colour, size, etc.
5. All food stalls must undergo a food hygiene inspection by the Council's Food Safety team, after which the business is issued with a food hygiene certificate.
6. All stalls selling any other merchandise must comply with all legislation in relation to trading standards and traders must be aware of the legislation in relation to copyrighting of goods.
